Subject: RE: Woburn Drilling Update - 6/14/10

We plan to arrive on-Site tomorrow morning between 8 and 9AM. We will remove the diffusion bags from the on-Site Grace monitoring wells in the morning and then sample the Grace recovery wells in the afternoon. If necessary, recovery well sampling will be finished on Thursday.

We will send you a VI sampling well order when that work is scheduled.

Let me know if you have any questions.

Anne

Please provide us with the order you plan on sampling each well and approximate schedule (similar to the well installation order and schedule). Thanks! Joe

Woburn Drilling Update - 6/14/10

Completed installation of UG17.
Began development of newly installed monitoring wells.

Well development to continue tomorrow.

Additional monitoring well installation on hold pending approval of
Traffic Management Plan. We will submit written request to relocate UG8.

Grace annual groundwater sampling will be done Wednesday and Thursday
this week. UniFirst and off-Site sampling as well as VI related sampling
may begin week of 6/21 if installation/development of remaining four VIA
wells has begun.

Let me know if you have any questions.

Anne
